SUNK IN THE SEA.

A Thrilling Marine Accident Near Point Lookout.

A Collision On the High Seas—Cause of the Accident—An Exciting Scene—Several Persons Lost in Spite of Every Effort to Save Them.

BALTIMORE, Aug. 13.—The steamship William Lawrence came into collision with the schooner Lavina in the Chesapeake Bay, near Point Lookout, and the schooner sank in ten fathoms of water, carrying down the wife and two children of Capt. W. H. Anderson, of the schooner, and Joseph Lovett, the colored cook. The steamship William Lawrence is one of the Merchants' and Miners' Transportation Company's vessels, sailing between Baltimore and Savannah. She is commanded by Capt. T. A. Hooper, and was on her way to this city. The schooner Sarah Loring was owned by Greenleaf, Johnson & Sons, of this city, and was commanded by Capt. W. H. Anderson, of Baltimore. She was bound from Havre de Grace to Norfolk with a cargo of 226 tons of coal, consigned to A. McCullough.

Capt. Anderson, of the schooner, reports as follows: "We were bound from Havre de Grace to Norfolk with a cargo of coal. We first saw the steamer's green lights a little above Point Lookout, and supposed from the way we were going would clear her. But the steamer suddenly showed her red light, and I had not a chance to keep clear. Seeing she was about to strike us, I put my wheel down, but before the schooner could answer her helm the steamer struck us on the starboard side, a little abaft of the forward end of the house. Capt. Coffield was at the wheel and I was beside him watching the compass and the steamer's lights. Before we struck I rushed to the cabin for my wife and two children, who were in their berths, and had called to them to come out. I was knocked overboard when the steamer struck us, and was kept down by the mainsail. In going down it fouled with the steamer and held up and gave me a chance to get from under it. I was hauled on board the steamer by a rope lowered to me. I never heard a sound or cry, and my vessel sank inside of five minutes. I never altered my course until I saw the steamer was going to strike us, when I threw the wheel down and she fluttered. The wind was northeast at the time and we could not come up well. The Captain of the steamer told me that when his vessel struck us he was steering by east-half-north-east. Captain Coffield and Lewis Tangle, saved, were colored men. My children were in their fifth and ninth years, and my wife was in her thirty-fourth year. I have one child, a son fourteen years old, left. He is employed in Hamilton, Easter & Son's dry goods store. The schooner was twenty-seven years old. The steamer suffered no damage."

A HOTEL FIRE.

The Kimball House of Atlanta, Ga., Burned.

ATLANTA, Aug. 13.—The Kimball House was discovered to be on fire yesterday morning at 5 o'clock. The flames getting beyond control, Mr. Seville, the proprietor, ordered the guests awakened, and the guests went through the hallways, breaking open doors where necessary to insure the safety of guests. The fire having originated in a rear building was favorable to their escape. Within twenty minutes the hotel was emptied, and within an hour the structure was burned to the ground. The hotel was built by A. I. Kimball, and owned by Robert Tompkins, John Rice, Joseph P. Thompson, and others. It cost \$600,000 and the furniture \$125,000, while the insurance was only \$80,000, among many companies. The Gate City National Bank; Harrison & Bro., tobacconists; John B. Daniel, drugs, and others are among the losers. The total loss is \$1,000,000, with insurance not over \$200,000. The fire is claimed by Mr. Culbertson, agent of the company, to be incendiary. In the vaults of the Gate City Bank were \$500,000, which is yet a matter of doubt.

The fire broke out about half past four. Opinions as to the origin are conflicting. Charley Slider and Phil Green, two of the Constitution's boys, connected with the mailing department, saw the fire breaking out, and realizing the danger the guests were in, rushed into the building and made their way along the corridors, waking up the sleeping occupants. In some places they certainly saved lives, as there were people in the house who had not been brought out by the first alarm. They went to the top story of the house, and did much good work in awakening people. They express the opinion that when the debris is removed it will be found that there are persons who perished in the flames. The flames had enveloped the building on the west side before the officers of the Gate City Bank arrived. L. J. Hurst was absent from the city. William Hill and Ed. McCandless were on hand as soon as notified of the fire, and with the assistance of citizens took the valuable books and papers from the vault to a place of safety.

The safe, containing a half million in valuables, could not be removed. As soon as possible a steady stream of water was turned on the vault, and it is thought the papers and money are all right.

Rattlesnakes in Connecticut.

NEWBRIDGE, Conn., Aug. 13.—Rattlesnakes were supposed to be extinct in this part of the State until last Friday, when Albert Smith, an old gentleman, who was out luckleberrying not far from the village of Groton, opposite New London, killed one measuring three feet and eight inches and sporting seven rattles. Three days later its mate, three and a half feet long and carrying the same number of rattles, was killed, not far from the same pasture, by James Prince. The rattles indicated that each snake was ten years

SPAIN'S TURMOIL.

The Latest Stage of the Great Republican Uprising.

LONDON, Aug. 13.—King Alfonso Saturday telegraphed to the Duke de Montpensier that the disturbances throughout Spain were suppressed, and quiet now reigned. While there can be no doubt that so far as the recent troubles amounted to a military uprising the movement has practically collapsed, still, politically, matters in Spain are in a very bad shape. The Carlist feeling has long been nursed, and it is now in a dangerous condition. Recent events in the Spanish Capital have so embittered the adherents of Don Carlos against the reigning King that if no actual revolution occurs, the assassination of Alfonso, while it is not actually looked for, may transpire at any moment, and would occasion no very great surprise. The Carlists have the active sympathy of the Socialists throughout Europe. Socialism pervades the Spanish soldiery and the Spanish militia to an alarming degree. The small uprisings that have been going on throughout the country during the past week were all instigated by socialists. The Spanish events of the week were all accurately foretold weeks ago by the socialist organ published in Geneva. To the close observer of Spanish affairs it is apparent that the Spaniards are sufficiently discontented and socialist as to be quite ripe for revolution. All they lack is organization under a competent leader. Ruiz Zorrilla has been the prime mover in all this discontent, which he has been fomenting undoubtedly for the purpose of crystallizing it and directing it against the throne. The disturbance, however, vented itself in spasmodic eruptions before the time Zorrilla intended to make his strike, and during his absence, so that the district risings were ineffective, because unorganized, and the whole trouble has apparently ended for the present in a sort of national tremor, frightful in its portent, but without a result as a revolution. Zorrilla started for Spain at the news of the first outbreak, but he was too late to organize anything like a well defined movement. The people in the north of Spain are still in a state of ferment, and may yet organize and put down the local authorities.

A SWEDE SWINDLED.

Outrageous Conduct of a New York Hack Driver.

NEW YORK, Aug. 13.—Another case of imposition upon the ignorant by the really hack driver has received, through Marshal McDermott, the attention and disposition it deserved. That Anderson, a wife arrived in this city from Wisconsin on their way back to Sweden. The took board at Meyer Bloch's boarding house, No. 724 West street, intending a sail on the Westphalia on Thursday last. Bloch called Charles Avennes, one of the class of hack drivers known as "night hawks," to drive them to the Christopher street ferry. The driver pretended that the ferry was fourteen miles distant, and in this statement he was supported by the boarding-house keeper. The fact was the distance was only half a mile, and a street car would have carried the couple directly to the ferry-house for ten cents. Avennes demanded \$5, which the Swede paid under protest, and drove them a roundabout way, so that the couple reached the steamship dock just after the Westphalia had sailed. Police Officer De Nys reported the swindle to Marshal McDermott, who immediately set to work in his investigation. When search was made for the "night-hawk" he had disappeared, and his employer, Matthew Toole, of No. 56 Washington street, said that he had taken with him funds belonging to the office. Toole was arraigned before the Mayor on the charge of employing an unlicensed driver, for such Avennes proved to be. The Mayor, after giving the case a careful hearing, ordered Toole to return \$4, the amount which Avennes had overcharged, and to pay the expenses of the couple during the time they have been delayed—in all, about \$25. The Swedish Consul will send them to Europe.

BLACKMAILERS.

An Italian Gang Held for Trial in New York.

NEW YORK, Aug. 13.—Michele Beneci, or Benincasa Gaetano, and Antonio Landi, employed in Fiebi's piano-forte manufactory, No. 417 West Twenty-eighth street, and residents of No. 68 James street, were arrested by Detective Sergeant Crowley and Langan, on warrants issued by Justice White on the complaint of Mr. Charles Pavia, of the Italo-American Bank, who charged them with attempting to extort money. A month ago they wrote to Mr. Pavia a stupid letter, in which they said that he had bought a bill for \$80,000, lost by a person known to them, and found by Raffaele Desierty. The latter threatened that if Mr. Pavia did not pay handsomely he would be denounced to the owner of the bill. Mr. Pavia took no notice of this letter or of one which threatened that publicity should be given to his dealings in all the newspapers; but on the 14th ult. the blackmailers visited his office, tried to frighten him, and were turned out of it. On Thursday they re-venge themselves by publishing an advertisement offering information about the mythical eighty-thousand-dollar bill. The detectives caught the prisoners by representing themselves as reporters at a place in which they were in the habit of going.

Horrible Wife Murder.

NEWBURY, N. C., Aug. 13.—At this place there is a long bridge over the Trent river, used by the railroad, the river, a native wife, being treacherous. John Sears, a negro, residing across the river, induced his wife to cross the bridge with him. When wandering in the darkness at night, he pushed her off. She gave one scream and has never been seen or heard of. A negro man, sitting on a pier of the bridge, saw the act and following Searswell identified him. He is to be tried for the crime.

THE PRESIDENT.

The Record of His Wanderings in the West.

In the Heart of Wyoming—A Wild Ride and a Camp in the Wilderness—An Interesting Locality—Future Plans of the Party.

WIND RIVER RANGE, WYO., VIA SALT LAKE, UTAH, Aug.—The Presidential party moved on from the camp near Warm Springs Sunday morning, and enjoyed the sublimest scenery on the continent. At Warm Springs the trail diverged from General Sheridan's former route of last year, taking a new line from the mouth of the Riviere de Marr almost due west up a small creek. The camp, arranged at noon, is on the mountain side by the top of the Wind River Mountains, and west of Union Pass. The view of the travelers was magnificent. Thirty miles to the northwest was Young's Peak, 11,900 feet high, and Mount Leadly, 11,770 feet high. In the foreground the snowy peaks of the Grand Tetons, the Mont Blanes of America, loomed up the highest rising to an elevation of 13,691 feet. The President has no time here to fish and hunt. He can only sit and ponder on the vastness of the scenery about him.

The camp is on the apex water-shed of the continent, which supplies the vast quota of clear water to millions of the thirsty, makes mining possible over 200,000 square miles, and is one day destined to be the motive power of unlimited industries.

A FIERY ORDEAL.

The Wild Ride of a Northern Pacific Train.

BRAINARD, MINN., Aug. 13.—Recently a train on the Northern Pacific railroad found its way apparently barred by the furious heat of burning wood-ricks along the track. The train stopped, the rail-roads were examined to see if they had warped, and then it was decided to run the gauntlet. A passenger thus described the passage, which was made at the rate of seventy miles an hour, to a reporter of the Portland Oregonian: "We shut down the windows and closed the door tight just before we started, but the air inside the car was like the breath from a furnace, and the whole train seemed to be on fire. The flames licked the window glass savagely, and although it lasted only a few moments, it was an experience I shall never forget and never again wish to undergo. I can't help but think of the terrible danger we passed through. If one rail of the track beneath us, having been warped by the heat, had given away, we would every one of us have been roasted alive. It makes me shudder even now."

A SENSELESS CRIME.

Suicide and Murder Over a Foolish Quarrel at Cards.

ST. LOUIS, Aug. 13.—A probable murder and suicide occurred at Reel's saloon, on Cherokee street, during a game of cards, in which Frank Ward, proprietor of a notion store, and August Duncker played. Duncker, who was playfully accused of rubbing out two aces, withdrew from the game and left the place threatening violence. No attention was paid to him, but a few minutes later he returned, and inviting Ward to the sidewalk, shot him in the abdomen, inflicting a probably fatal wound. He fired two other shots without damage, and then seeing what he had done, ran to the back yard of his home and discharged the fourth load into his own brain. Both men will probably die.

Burned to death.

TRIOY, Aug. 13.—It is stated that besides the six railroad employees, three tramps and a boy, the son of Thomas Conitt, of North Adams, Mass., were burned to death in the wreck on the Troy and Boston Railroad on Aug. 1. A pluntiff bones and one body was found after the wreck was cleared up. The body found was that of Bruce, the telegraph operator. Most of the bones were so soft that they crumpled when touched, as the fire was so hot that the iron wheels of the wrecked cars were melted. It is possible that the tramps and the boy may have perished. They are said to have been locked in a forward freight car at North Adams. The employees of the company have been quietly talking of the subject for several days, and they generally believe the report. The boy ran away from his parents' house on the night of July 31, and has not been heard from since.

A COLORED HERO.

Saving a Girl From Death at the Peril of His Life.

MOBILE, ALA., Aug. 13.—There was a large excursion of colored people from this city to Scranton yesterday, on the Louisville and Nashville Road. During the afternoon a colored girl fell from a flat-bone into the Pascagoula River, and would have been drowned but for the heroic act of a colored man named William Wilder, who jumped in to rescue her. In this he succeeded, but, being unable to swim, was himself drowned, in sight of many of his race, who made no effort to help him. The young man had an excellent reputation here, being the office boy of the largest legal firm in the city.

A War Rumor.

WASHINGTON, Aug. 13.—It is stated in army circles that Adjutant General Drum is preparing a circular letter to the Adjutant Generals of the several States requesting a statement as to the equipment of the militia, and whether it is possible to put a force of 200,000 men in the field. This letter, which is much discussed, is the subject of much speculation in army and political circles.

MORMON SNEAKS.

How They Are Getting In Their Work in Georgia.

SAVANNAH, Aug. 13.—Agents of Mormonism are actively at work in Carroll Fayette, Campbell, Franklin, and other counties. Their methods are so stealthy that even intelligent people are not aware of their presence. Their plan is to make nocturnal calls, and when enough subjects are brought over to their views, to hold late meetings at lonely places, where converts can be instructed, and in time depart ostensibly for Texas, but in reality for Utah. Several families in Clayton are known to have taken this course lately. In out of the way places there are a great many ignorant people, with no church relationship and but little removed from fetish worshippers. They are easily approached by Mormon emissaries and are so secretive that it is impossible to get a revelation from them. This in no way applies to intelligent citizens, who are not aware of the danger by which they are surrounded. This is shown by an instance developed last week. The Franklin News published the following: "There are Mormon emissaries in this county. What is worse, they find fools who will listen to their foul discourse. It is presumed, however, that they are not received in any respectable family." The editor soon found out that he had said too much, for in the last issue of the paper he says: "Of course we had no reference to those who are ignorant of the corrupt practices of Mormons." The fact that Mormonism should have so far won its way that the Gentile has to be careful how he speaks about them is startling enough, and shows that unless something is done speedily Utah is not the only place where a rooting out will be required.

SUSPICIOUS CASES.

Several Attacks of Fever that Trouble New Orleans Authorities.

NEW ORLEANS, Aug. 13.—The attention of Dr. Jones, President of the Louisiana State Board of Health, has just been called to three mysterious cases of fever lately occurring with fatal result at Fort Bayou, a point a few miles in the rear of Ocean Springs, in Jackson County, Miss., on the coast shore, eighty-four miles east of New Orleans. Dr. Jones promptly dispatched Dr. W. H. Carson, Quarantine Inspector at Lookout Station, but the last case had been buried before his arrival. He makes report that the first case was that of a Mrs. Shannon, who was taken sick on July 26 and died August 3. The next case was F. P. Shannon, her husband, who was taken sick on July 30 and died on August 3, and the other, Frederick Snyder, who was taken Aug. 4 and died on Aug. 9. The latter case had some of the characteristics of yellow fever, and still others foreign thereto. No marked symptoms of yellow fever characterized the first two cases, yet the husband evidently caught the sickness while attending upon the young lady and the young man Snyder, the nearest neighbor, while nursing them both. The Shannons came from Nashville last December and Snyder from Virginia about a year ago. Neither of them had ever had the yellow fever, and no doctor at Ocean Springs was capable of pronouncing upon the cases. Dr. Snyder arrived there after the autopsy and burial of Snyder, and there was nothing developed in the post-mortem to justify him in pronouncing the cases yellow fever. The attending doctor had the premises of the dead person disinfected and the bedding destroyed. A strict watch has been established, and further manifestation of the disease will be looked for with interest.

THE NEW SCHEME.

The Mysterious Western Trip of Certain Railroad Men.

OMAHA, NEB., Aug. 13.—The Devereux-Tillinghast party, accompanied by J. W. Burrows, of St. Louis, reached here via the Missouri Pacific. All efforts to get an official statement of the object of their visit were fruitless, but they exhibited an interest in the city and surroundings far beyond that of casual visitors. About a week ago an Englishman named Shaller, who has been conducting several big transactions here lately, secured the refusal of 200 acres of land in the northern part of the city, and the party made two visits to the tract, both of which were followed by animated discussions. It was reported around town that they were on a tour of inspection connected with the building of a new line from St. Louis to Omaha, but both Mr. Tillinghast and General Devereux spoke of it rather lightly. The latter said that they came to see the city, about which they had heard many glowing accounts, and had intended going further West, but pressing engagements of Mr. Tillinghast would compel them to return East immediately. Mr. John Duff, of Boston, is with the party, and a gentleman who had heard him talk intimates that a project is on foot to form a compact between the Union Pacific, Chicago and Northwestern, Lake Shore, and New York Central, by which a new line will be insured from coast to coast, in opposition to the rapidly developing and aggressive Chicago, Burlington, and Quincy system.

A DUAL MYSTERY.

Remarkable Disappearance of Two Newspaper Carriers.

ST. LOUIS, Aug. 13.—One Krieg, a morning paper carrier, has been mysteriously missing since Monday last, no one knowing why or where he is gone. He left no reasons for his sudden departure. This man bought the route over which he delivered his papers from a Mr. Vrana, who owns a notion shop at No. 1221 Park avenue, who it is claimed had formerly sold it to a Mr. Mand, who also mysteriously disappeared. Mr. Krieg has done after having delivered on his route but six weeks. Both cases are mysterious, and foul play is feared by many who claim to have known the men.

FOREIGN.

Workingmen's Demonstration—The Progress of Cholera.

ALEXANDRIA, Aug. 13.—The number of cases of cholera is decreasing both in this city and the other infected districts. The condition of the British troops is improving, no fresh cases of cholera having been reported among them, and the sick are doing well.

LONDON, Aug. 13.—There were twenty-three deaths from cholera in Alexandria and eleven in Cairo.

AUSTRIA.

VIENNA, Aug. 13.—Crowds of workmen assembled to hold a demonstration because of the arrest of their fellow-workmen for denouncing the Government's seizure of the workmen's paper. The police with drawn swords dispersed the crowds, who separated without causing any disturbance. It is now stated that the immediate cause of the riot on Friday was the arrest of an English Socialist named Stevens, whom the Government officials claim was acting under instructions from Herr Most in the publication of the workmen's paper.

ENGLAND.

LONDON, Aug. 13.—The meeting which was called to express admiration for Captain Webb and raise a fund to be devoted to the erection of a monument to his memory was almost unattended. The project of the monument has been entirely abandoned, and what money was raised will be given to his widow and her children.

The Duke of Saxe Coburg Gotha will publish his memoirs in November. All the entreaties of relatives and friends have not been potent enough to deter him from his purpose, although the publication will bring to light many scandals that it had been hoped would never be known.

Lord Windsor has married the daughter of Sir Augustus Paget. The wedding was a very brilliant affair, and is looked upon in aristocratic circles as the event of the season. The Queen's present to the bride was the inevitable Indian shawl, which her Majesty seems to think is the only proper gift on such occasions. Lord Windsor's income is £60,000 a year, his revenue being derived chiefly from his large mining estates.

The Rev. Newman Hall has abandoned his contemplated trip to the United States. The Earl and Countess of Carnarvon will start shortly on a tour through Canada.

Mr. Charles Wyndham, Mr. Howard Paul, Lord Chief Justice Coleridge and Dr. John Russell, of the London Times, will sail in the Celtic on the 14th inst. for New York. Lord Castleton and Colonel Needham, of the Life Guards, have started on a three months' trip through the United States. Lords Latham and Elphinstone are about to start for the United States and Canada, where they will remain for four months. Lord Rosebery and his Countess will leave for Australia on the 24th inst. They will make a tour of the world, returning homeward via San Francisco.

A BRUTAL CRIME.

A Murder for Refusing a Man a Wagon Ride.

RICHTON, VA., Aug. 13.—While Mr. Shephard and his little son were passing a place called Fall Creek, about six miles from Danville, Va., they were accosted by three negroes, who demanded permission to ride with Mr. Shephard. On being told that he had as much load as his wagon would carry, one of the negroes drew a pistol and shot Mr. Shephard, killing him instantly. His body was discovered lying in the road by a Mr. Robert Bradley, who at once came to Danville for assistance to arrest the murderers. They have been caught and it is rumored that they will be lynched.

HORSE THIEVES LYNCHED.

Summary Disposal of Criminals Down in Georgia.

VICKSBURG, MISS., Aug. 13.—Three fine nudes and one horse were stolen from the Ashberry Camp Ground, in the northern part of Monroe county, Ga., during the camp meeting at that place. Four strangers were seen on the camp ground during the day, with pistols buckled on their persons, and their rough appearance attracted attention to them. As soon as the stock was missed a posse was organized, prepared themselves with double barreled shotguns, and started in pursuit. The thieves were overtaken just over the line in Mississippi and the stolen property recovered. The posse did not state what became of the four thieves, but it now has leaked out that they were hanged in the woods.

A Flutter On Wall Street.

NEW YORK, Aug. 13.—There was intense excitement at the Stock Exchange at the opening. Heavy blocks of stocks were thrown upon the market, and prices declined 1/4 to 3/4 as compared with Saturday's closing figures. The greatest break was in Northwestern Pacific, Oregon, Transcontinental, Erie, Western Union, Union Pacific and Southwestern shares.

NEW YORK, Aug. 13.—The break in prices was due entirely to attacks by the bears, as there is nothing new in the financial situation which would cause a sharp decline. Many operators bought on the break Saturday for a turn, but they were shaken out this morning, and this accelerated the decline. There are the usual rumors about of the financial embarrassment of individuals and firms, but no names mentioned, and the rumors are not credited.

More Complaints About Cut Wires.

NEW YORK, Aug. 13.—The Western Union complain that many of their wires were cut again, the number tampered with according to Mr. Humstone's statement, being 101. The strikers say that if all the wires had been cut that have been so reported all the linemen on a strike and at work could not repair them in six days.

The Cincinnati Enquirer says: Leonard Case, of Cleveland, a bachelor millionaire and the magnificent founder of the Case School of Applied Science, was a man of amiable character, of fine culture and of remarkable abilities, but his life was so clouded by constant ill-health and by a singular constitutional shyness, that his talents were unknown even to his own townspeople, and hardly appreciated by his few intimate friends. He wrote poems, sketches and tales for his own amusement, rarely publishing anything but an occasional mathematical paper in the transactions of the Smithsonian Institution. The manuscript of a complete novel, said to be excellent, was found after his death in a mass of documents.

An Example to Follow.

During a recent visit to Maysville we were very much impressed with the business activity of the city, and when we saw her extensive manufacturing of flour, lumber, sash, doors, knit goods, cotton, hemp, plows and other interests too numerous to mention in detail, illustrating the enterprising spirit of her citizens. And when, in conversation with some of her prominent business men, we noticed that they talked up their city first, last and all the time. This is as it should be; such men are benefactors to their race wherever found. The above, we think, accounts for the progress and growth of Maysville.

The man who doesn't walk straight up
And lay his dollar down,
For ear fare, ought most certainly,
Be drummed right out of town.
And now that it has come to pass,
We know the ears are coming,
In twenty seconds could be raised
A mob to do the drumming.

The camp meeting at Parks Hill closed yesterday at 11 o'clock, with a sermon by Rev. M. D. Reynolds, who gave an encouraging view of the camp meeting enterprise. The trains on Monday afternoon were crowded with campers leaving for their homes. All were delighted and engaged to return next year.

NEXT Friday evening a moonlight fete, or "starlight festival," will be held at Murphysville in the Presbyterian Church yard. The proceeds will go toward the erection of a new school house at that place. Refreshments of all kinds will be served by efficient caterers, good music will be secured, and an enjoyable evening is promised all who may attend. Let all turn out and help the good cause, as all know how badly a new school house is needed at that place.

CAMP MEETINGS.

RUGGLES CAMP GROUND, Aug. 11.
The sunrise prayer meeting was conducted by Rev. C. Foster, and there was a good attendance. At 8:30 a. m. a prayer and experience meeting was held, conducted by Rev. S. G. Pollard. This was a very good service, many testifying to God's power to save.

At 10:30 a. m. Rev. W. A. Phillips preached on the word amen, as found in the 6th chapter of Matthew, 18th verse. There was a better congregation than at the same hour yesterday. The preacher elaborated two ideas which are meant in the word amen. First, "It means assent to all included in the prayer or proposition preceding it, and especially in reference to the Lord's Prayer, of which it forms the close." Second, "that it includes the idea of a promise on the part of him who uses it to establish that which is asked for, by a life conformed to the petitions."

At 3 p. m. Rev. S. G. Pollard preached from John 15th. 4th—"For without me ye can do nothing." The sermon was full of precious gospel truth, and produced a deep impression. Rev. W. A. Phillips followed with a very earnest appeal to all present to receive the blessing of salvation.

Rev. H. C. Northcott preached to a very large and deeply attentive congregation at 8 p. m., a sermon founded on Ephesians 2nd chapter, 18th and 19th verses. "Access to God, and its Benefits," was the theme presented. The services closed with an exhortation from the Presiding Elder, with several fervent prayers. A solemn, tender feeling was evident through the service. The audience was the largest we have had on Saturday night.

People came to-day from various places. From Vanceburg we have J. B. Fitch and wife and two daughters, Will Fitch, Esq., and wife, Huston Fitch, Esq., and wife, Miss Nettie Truitt, of Quincy, I. M. Lane, of Maysville, Rev. John S. Cox and family, T. Dnd. Pollitt and wife, J. S. Taylor, and Thomas Patman and wife, of Tollsboro. The cottages are full, as is the hotel, and running over. Only two preachers came to-day—Revs. M. D. Murphy, of Concord, and P. H. Wright, of Harrison. We look for a large crowd to-morrow.

RUGGLES CAMP GROUND, Aug. 12.
The Sabbath morning dawned clear and warm, but owing to some inattention no sunrise prayer meeting was held. At 8:30 a. m. we had a very good experience meeting. A very joyful feeling was manifest. The crowd came early, and by 11 a. m. the number was estimated from 3,000 to 5,000. There were doubtless 3,000 persons on the ground. Fifteen hundred were in and about the tabernacle, and listened to an excellent sermon from Rev. W. A. Phillips of Covington, on the text, Heb. 2; 3: "How shall we escape if we neglect so great salvation." We have heard many sermons on this text, but never heard it more ably nor with as much attractiveness presented. The very large congregation listened with deep attention to the close. We have not room nor time to give a synopsis of it or we would.

Rev. J. D. Walsh preached with his usual clearness and force at 3 p. m., on 1st Cor. 12; 7. But a manifestation of the spirit is given to every man by spiritual gifts, and at 8 p. m. Rev. H. C. Northcott preached on Deut. 32; 35. The theme was "The danger of false foundation in religion." There were large and attentive audiences both afternoon and night. The hotel, confectionery and livery stable were patronized liberally. We have had a day of peace. Good order prevailing generally. Good people persist in bringing their families to Camp Meeting and their frisking through the congregation must be a part of their programme for edification and their howling at night enables them, by contrast to enjoy the songs of the Tabernacle the more. "Beware of dogs," so says the Bible.

Mrs. Moore and Whitridge are expected to arrive every day. Rev. J. R. Eads and Howes are expected to-morrow. Rev. Bilwell Lane and Dr. Stevenson will be here early this week. All except Mr. Eads, and possibly he also, will remain over Sabbath next. President Brooks of the Ohio Holiness Association, will have charge of the service on Thursday all day. Friday will be temperance day, and will be occupied in praying and speaking for temperance. We invite all the friends of temperance in Kentucky, Ohio and the balance of the United States to come, but then our twenty acres would not hold them, but we will risk all that may come. One professed the blessings of perfect love this evening.

RUGGLES CAMP GROUND Aug. 13.
The day was begun by a sunrise prayer meeting conducted by Brother Ebright, and followed at 8:30 a. m. with an experience meeting. There were many valuable testimonies given and an excellent spirit pervaded the hearts of God's people.

Rev. J. D. Walsh preached at 11 a. m. on the subject of faith, founded on a part of the 11th chapter of Hebrews, after which the Lord's supper was administered by him, assisted by the other ministers present, to altogether, seventy-six communicants. The season was very profitable.

At three p. m. Rev. P. H. Ebright preached on Rom. 7. The discourse consisted of an exposition of this chapter in defense of the methodist doctrine of holiness. A prayer service followed by Rev. W. A. Phillips, in which a great deal of deep religious feeling was developed. A children's service was conducted at 2 p. m. by I. M. Lane, and at 8 p. m. Rev. W. A. Phillips, preached a discourse on the text found in Deut. 32; 45: "For it is not a vain thing for you, for it is your life."

The congregation was good and attention very close and serious. The sermon was one of both intellectual and spiritual power, and moved the hearts of the congregation deeply. The service closed with deeply interesting altar exercises. Many have already been greatly benefited by the meeting, but we believe a cloud of mercy is gathering over us "to burst in great blessings on our heads."

Rev. S. G. Pollard left us this morning,

much to our regret. His labors have been highly prized. Rev. Jedediah Foster, pastor of Tollsboro circuit, and Rev. John R. Eads, of Augusta, came to-day. The Board of Directors have announced that the gates will be open until Saturday morning. Let everybody come.

The Street Railway.

The Street Railway Company have been notified by telegraph that three of the cars will arrive some time to-day from Covington by the Kentucky Central. They will be placed upon the track immediately and will be run at hours that will be found most convenient to the general public. Of course until the other cars arrive it will be impossible to to arrange a time schedule that will meet all the demands that the railway is expected to provide for, but as this will be for a brief period only, the public will, the Company hope, bear with them patiently, with the assurance that the best is done that can be done under the circumstances.

The established fare is five cents a trip, which consists of going from any point on the road to the end, or twenty-five tickets may be had for one dollar. Every person making use of the cars will be required to pay fare excepting only infants in arms. As there will be no conductor in the cars five cents or a ticket must be deposited by such passenger in the box provided for the purpose at the end of the car next to the driver, who will furnish change whenever it is necessary. A considerable number of our citizens who appreciate the enterprise of the Company, and desire to encourage it in a practical way, have bought tickets to the amount of from \$1 to \$25, and have furnished an example that ought to be generally followed. We suggest that every citizen who can afford to do so should buy for himself at least one dollar's worth of tickets, and one dollar's worth for each member of his family. This is due to the enterprise, and we hope to have the pleasure of recording at this liberal spirit which has been manifested by the people of the city.

At Lexington, yesterday afternoon, a negro boy about fifteen years old, attempted to run across the track in front of a train and fell with his head on the rail, and was lacerated. He made the attempt on a wager of five cents.

Nun's veiling was never so popular as at the present time. It is used in all shades for dresses worn both by misses and young girls.

The fashion of dressing the hair high is becoming more and more general.

THE MEMPHIS EXTENSION.

Great Preparations Made for a Grand Opening.

KANSAS CITY, Aug. 13.—The date of the opening of the Memphis extension has not yet been decided, but the officials believe that the work will be done by September 15. A grand excursion from Kansas City to Memphis and another from Memphis to Kansas City will celebrate the event which is fraught with so much interest to both cities. The building of the road has already commenced to benefit the city. The extension cuts off Cairo completely, and several grain and produce men have moved to Kansas City to establish themselves in business in order that they may retain their Southern trade. Cairo, through the parsimonious and grasping Halliday monopoly, has hitherto controlled nearly all the German line points, but this trade, by the aid of the Memphis line, will be transferred to Kansas City almost in one move. Another benefit is shown by the New Orleans Times-Democrat, which says: "The completion of the Kansas City, Fort Scott and Gulf Railroad during the present month to Memphis, Tenn., will shorten the Big J route via Memphis over their present line via St. Louis about 122 miles, and will make their direct line to Kansas City about 125 miles shorter than the Texas and Pacific over their own line to Kansas City. This will also enable the Great Jackson route to shorten up very materially their present quick time both on passengers and freight to Missouri River points and important cities in Colorado, Utah, Arizona, New Mexico and California."

The benefits to Kansas City and all Missouri River States and to far Western States can not be detailed. Every day new trade vistas appear, and show the wisdom of the projector of this great road.

MEDICATED WELL-WATER.

A Specific for Dyspepsia and Dis-eases of the Kidneys.

HAS been used with most gratifying success in many obstinate cases. Prof. F. W. Clark, professor of Chemistry at the University of Cincinnati says this water "belongs to the same class with that of the Allegheny Springs, of Virginia, the medicinal virtues of which are too well known to be stated here. Those who desire to try this famous water are referred to Captain C. W. Boyd, Levanua Ohio; Captain C. M. Holloway, Cincinnati, Ohio; J. J. Knipe, Cincinnati, Ohio.
